## EXPERIENCE

### Graphic Designer / Freelance

QBF Designs / Fort Saskatchewan, Alberta July 2020 - Present

I created a brand for myself to explore freelance opportunities, as well as a website to provide access to my portfolio.

### Stay at Home Parent / Community Volunteer

Fort Saskatchewan, Alberta August 2016 - Present

I am a stay at home parent to my three children, and have skills in many areas related to this position. I am also an active member in my community, and have been a coach for over 10 years, including various board positions. I have also worked at the Boys and Girls club in Fort Saskatchewan, and volunteered my time and skills to various not-for-profit organizations. I have a strong skill set for working with children and a huge passion for helping others.

---

*Prior to staying at home full time, I was a Chemical Process Operator / Power Engineer for 14 years.*

### Pipeline Control Centre Operator

Enbridge Pipelines / Edmonton, Alberta July 2012 - August 2016

Responsibilities included daily task management, control panel style operations, adhering to operations as outlined by policies and procedures, communication with field staff, responding to emergency situations, revision of procedures, general housekeeping, and participation in regular safety meetings.

### Chemical Process Operator

Evonik Degussa / Gibbons, Alberta May 2005 - July 2012

Worked as a chemical process operator for the production of hydrogen peroxide in both batch and continuous flow operations. Tasks included operation of various units including waste water treatment plant, cooling water towers, catalyst reclamation, boiler operations, demineralization plant, and hydrogen gas plant.

- qualified as Quality Management System Auditor / Lead Auditor

### Pharmaceutical Batch Operator

Raylo Chemicals / Edmonton, Alberta May 2002 - May 2005

Required to work under cGMP regulations, including detailed recording of process operations and data, for the chemical process operations of pharmaceutical grade products.
